

Double connection joint CD60 NIDA Metal

Technical Data Sheet

Description:

The double connection joint CD 60 is a metal part of galvanized sheet steel with a special shape (according to CD profile), made by punching and cold forming.

Characteristics:

Reference standard	EN 13964:2004
Material	OL DX51D+Z
Fire reaction class	A1
Length	145mm \pm 0,5
Width	57,7mm \pm 0,2
Nominal thickness	1 mm \pm 0,6
Net weight	0,045 kg / pc 4,5kg / box
Resistance	350 N / mm ²
Max. load	40 daN
Content of hazardous substances	None: according to EU regulations
Labelling / marking	NIDA Metal stamping
Packaging	100 pcs / box
SAP code	4042807

Use:

The double connection joint CD60 is used for fixing the main CD profiles on the secondary ones, when mounting the double metal structure of the Nida System ceilings.

The updated technical data sheet available on Siniat website, on the product page.

Recyclable product

Recommendations, storage and transport:

- Store the boxes indoors, in dry places.
- During transport, take into account that the impact with hard bodies that can cause local deformations.

Protection measures:

- The product is not classified as hazardous
- When assembling, take into account that the edges can cause cuts, and wearing protection gloves is recommended.

Certification:

- The product meets the requirements of Standard EN 13964: 2004 on plasterboard systems accessories. Galvanization provides corrosion protection, maintaining the properties over time.
- The product is in compliance with:
G.D. No. 1022/2002 on the products and services that may endanger life, health and safety and environment;
G.D. No. 622 / 2004 with subsequent modifications and completions establishing the conditions for marketing of construction products, the provisions on compliance, specifications and technical guidance documents.
