

Adjustable bracket 9-12 NIDA Metal

Technical Data Sheet

Description:

The adjustable bracket 9-12 is a metal part of galvanized sheet steel made by punching and cold forming.

Characteristics:

Reference standard	EN 13964:2004
Material	OL DX51D+Z
Fire reaction class	A1
Length	260mm ± 0,5
Width	35mm ± 0,5
Height	10mm ± 0,5
Nominal thickness	0,8mm ± 0,6
Net weight	0,058 kg / pcs 2,9 kg / box
Resistance	350 N / mm ²
Max. load	50 daN
Content of hazardous substances	None: according to EU regulations
Labelling / marking	NIDA Metal stamping
Packaging	50 pcs /box
SAP code	4042672

Use:

The adjustable bracket 9-12 is used for fixing the CD profiles on the load bearing support when mounting the metal simple or double structures, ceilings or NIDA System linings, placed at less than 120 mm from the support.

The updated technical data sheet available on Siniat website, on the product page.

Resistance to corrosion

Technical performance

Durability

Recyclable product

Recommendations, storage and transport:

- ▶ Store the boxes indoors, in dry places.
- ▶ During transport, take into account that the impact with hard bodies that can cause local deformations.

Protection measures:

- ▶ The product is not classified as hazardous
- ▶ When assembling, take into account that the edges can cause cuts, and wearing protection gloves is recommended.

Certification:

- ▶ The product meets the requirements of Standard EN 13964: 2004 on plasterboard systems accessories. Galvanization provides corrosion protection, maintaining the properties over time.
- ▶ The product is in compliance with:

G.D. No. 1022/2002 on the products and services that may endanger life, health and safety and environment

G.D. No. 622/2004 with subsequent modifications and completions establishing the conditions for marketing of construction products, the provisions on compliance, specifications and technical guidance documents.
